

IC R.L. MONTALCINI NOVARA ITALY

PERTINI PRIMARY SCHOOL CLASS 5

TEACHER ANNAMARIA CARNEVALE

Our institute IC Rita Levi Montalcini is the largest institute in Novara:

**5 Preschools**

**5 Primary schools**

**1 Secondary school**

Why Rita Levi-Montalcini?

For the great values that she has conveyed with her life and words. Person who sees education as the most important tool for the recognition of dignity of every human being and, in particular, of every woman.

Great supporter of young people, who encourages them to overcome every difficulty and to broaden the horizons of just look at the world around them, spurring them to come out of themselves.

**Our school is named after Sandro Pertini, the partisan who became the most beloved President in the history of our Republic. It's a small school with only 5 classes.**

**We are a small school with only 5 classes, but this is our strength. We are a large family that collaborates, supports and shares ideas and projects. We focus a lot on solidarity, on the link with local initiatives and on the development of skills in the English language. We are twinned with a village in Kenya, to which we are giving our contribution to build a nursery school thanks to parties, markets and walks.**

**Through LET'S GO GREEN we would like to make our kids aware of the environmental issue by enhancing their creativity.**
